

CENTER FOR FITNESS

Notice of Upcoming Construction

May 1-4

In order to improve air stratification throughout the facility, we must replace the rooftop fan coils.

Please note—this will not interrupt normal facility operations, however, Loyola Center for Fitness will be without air conditioning from Tuesday, May 1st through Friday, May 4th.

May 5th

For the safety and concern of our members and staff, Loyola Center for Fitness **will be closed completely all day** Saturday, May 5th due to replacement of our handling rooftop unit.

The scope of this project requires complete evacuation of all facility areas which fall within the swing of the crane lift.

The Spin & Stride Relay will take place as scheduled on Saturday May 5th

We apologize for any inconvenience, LCF Staff
